If the Chairmanship or the memberships become vacant for any reason before the expiry of their term, a new appointment shall be made for the vacant position within one month.

In addition to its duties specified by other articles of this Law, the Board shall also perform the following duties:

- a) To enforce the provisions of this Law.
- b) To determine the discounts to be applicable to the limits set forth under the eligible consumer definition, and to publish the new limits until the end of January of each year.
- c) To make the necessary regulations to provide reliable, good quality, uninterrupted and low cost electricity service to consumers.
- d) To determine financial reporting standards in accordance with the accepted accounting procedures and management information systems for license holders and to ensure their enforcement.
- e) To determine safety standards and conditions for generation, transmission and distribution companies, and for auto-producer and auto-producer group facilities, and to ensure their enforcement.
- f) To ensure development and implementation of the infrastructure required for new trading methods and sales channels, pursuant to the development of the market.
- g) To create model agreements, if necessary, in line with the objectives of this Law.
- h) To determine and implement procedures and principles preventing disclosure of any commercially sensitive information, including trade secrets and confidential competition information.
- i) To inspect activities and the practices of legal entities operating in the market and their compliance with the relevant license terms and conditions, in order to ensure their adherence to equality and transparency standards.
- j) To establish and implement standards and rules regarding inter-affiliate relations in order to enable competition, and to determine restrictions on reciprocal shareholding, business and accounting matters regarding market activities, if these standards must contain such restrictions.
- k) To prepare the annual report and other reports on market development, and submit them to the Ministry.
- l) To establish and implement personnel policy of the Authority, including personnel appointments.
- m) To decide on purchase, sale and lease of movable and immovable goods, and services for the Authority.
- n) To make the arrangements it deems necessary by monitoring the market-related legislation and practices of international organizations and agencies, and if there is a need for legislation to be adopted, to make the necessary preparations and submit them to the Ministry.
- o) To decide on all kinds of transactions regarding the receivables, rights, and debts of the Authority to and from third parties.
- p) To take the necessary precautions in order to encourage the use of renewable energy resources and local energy resources in electricity production in consideration of environmental impact, and to take initiatives before the relevant institutions and organizations for incentive practices in this regard.

In addition to the powers set out under other articles of this Law, the Board shall have the following powers:

a) To approve the instructions and communiqués that are necessary for the enforcement of the provisions of this Law and the fulfillment of the duties assigned to the Authority through this Law, and which must be followed by individuals and legal entities in order to improve competition in the market, the network regulation, the distribution regulation, the customer services regulation and the balancing and settlement regulation.

b) To grant approvals in relation to licenses and other approvals specified in this Law.

c) To approve the demand forecasts prepared by the distribution companies and concluded by Türkiye Elektrik İletim Anonim Şirketi, to have them revised if necessary.

d) To approve the generation capacity projection and transmission investment plan prepared by Türkiye Elektrik İletim Anonim Şirketi based on the estimated demand approved by the Board and the distribution investment plans prepared by the distribution companies operating publicly owned distribution facilities in accordance therewith, to ensure they are revised as necessary, and to supervise the implementation of the approved investment plans.

e) To inspect and approve the wholesale price tariffs, transmission tariffs, distribution tariffs and retail sale tariffs of Türkiye Elektrik Ticaret ve Taahhüt Anonim Şirketi, which shall be prepared in accordance with the relevant license provisions.

f) To determine the main pricing principles for transmission, distribution, wholesale and retail sale, and to revise them if necessary, in line with the relevant license provisions.

g) To publish the percentages of the amount of electricity offered for sale by auto-producers and auto-producer groups, apart from their own or their partners' needs, and revise them if necessary.

h) To determine the transmission surcharge rate, and to make arrangements for collection of the transmission surcharge amount by Türkiye Elektrik İletim Anonim Şirketi, and the payment thereof to the Authority.

i) To determine the fees to be paid to the Authority by legal entities for transactions related to licenses and other transactions.

j) To inspect the audited financial statements of legal entities operating in the market or have them inspected.

k) To determine the scope of the reports on service reliability, outages and other performance criteria, which shall be requested from legal entities, and ensure their regular submission to the Board.

l) To impose administrative fines and cancel the licenses, in case of violation of the provisions of this Law, the provisions of the regulations issued, tariffs and regulations approved by the Board, terms and conditions of licenses and Board decisions.

m) To inspect situations that pose or may pose a threat to the public interest and security during the construction and operation of generation, transmission and distribution facilities in collaboration with other public institutions, for the purpose of protecting public interest, preserving hydraulic resources, the ecosystem and property rights in general; and subject to prior notice, to take necessary precautions in these facilities to eliminate these situations in accordance with the provisions of the Law no. 3082 dated 20/11/1984.

n) To approve the budget, annual business plan, final income-expenditure accounts, annual report and other reports on market development of the Authority prepared by the Chairmanship and, if deemed necessary, to decide on transfers between budget items.

o) If license holder parties are unable to agree on the terms of contracts for connection to the transmission system or a distribution system, and the use of such system, to settle the dispute in accordance with the provisions of this Law and the respective licenses of the parties.

p) To carry out the expenditures of the Authority within the framework of its approved budget and in accordance with the regulation it shall issue to determine its expenditure principles and procedures.

r) In relation to existing contracts; to attend meetings between parties of these contracts, if it deems necessary, the date and time of which shall be notified to the Board five business days in advance.

s) In relation to existing contracts; to propose changes to facilitate the transition to the competitive market pursuant to the provisions of this Law for the consideration of the parties, and to mediate on the settlement of disputes in relation to existing contracts before any formal dispute settlement process is initiated for these contracts, provided that the provisions of the existing contracts regarding settlement of disputes are not violated.

t) To request from all public and private organizations and individuals and/or to inspect on-site any information or document it deems necessary relating to its scope of authority, while carrying out the duties conferred to it by this Law.

u) To assign or authorize the Chairmanship in matters that it deems appropriate.

The Chairman of the Board is also the head of the Authority. The Chairman is responsible for the implementation and enforcement of the Board decisions, and the Board's representation. This responsibility also includes the duty to inform the public about the activities conducted by the Board. The Vice Chairman assumes all duties and powers of the Chairman in the absence of the Chairman.

All decisions of the Authority are adopted by the Board, except for the powers delegated to the staff of the Authority by the Chairmanship.

Persons who are appointed as the Chairman or members of the Board shall be dismissed from their previous duties as long as they serve in the Board. However, in the event that the persons who are appointed as members while they are public officials apply to their former institutions within thirty days of the expiry of their term or their request for dismissal, they shall be appointed to a position in accordance with their vested rights by the authorized appointment authority within one month, provided that they still meet the conditions for entering civil service. Until such appointment is made, the Board shall continue to make any and all payments to these individuals. The Board shall continue to fund any and all payments to be received by individuals appointed as the Chairman or as members of the Board, who are not employed at public institutions or organizations and whose terms have ended in the manner specified above, until they take another office or job up for up to two years.

The Chairman and members of the Board, personnel of the Authority and peer personnel determined pursuant to supplemental Article 11 of the Decree Law no. 375, dated 27/6/1989 shall be provided with all payments made pursuant to financial and social benefits, under the same principles and procedures, including taxes and any other legal deductions.

Income, property and assets of the Authority

ARTICLE 10 – The income of the Authority shall form the budget of the Authority and shall consist of the following items:

A) ³⁸ Income of the Authority in relation to the electricity market and charging service shall consist of the following items:

a) Granting of licenses, license renewals, license amendments, issuance of license copies and annual license fees.

b) Publication revenues and other revenues.

c) Grants received from international institutions and organizations for use in the financing of studies and projects in relation to the development of the market, provided that their details are announced to the public.

d) Twenty-five percent of the administrative fines imposed by the Board.

e) Transmission surcharges up to one percent of the transmission tariff.

³⁹ The payers of the annual license fee specified in paragraph (a) are the license holder legal entities. The annual license fee to be applied within the year shall be designated by the Board and announced in December of the preceding year. In case the annual license fees are not paid on time, such unpaid amounts shall be followed up and collected by the relevant tax offices upon the notification of the Authority in accordance with the provisions of the Law No. 6183 on the Procedure for the Collection of Public Receivables dated 21/7/1953.

B) ⁴⁰ The Income of the Authority in relation to the natural gas market shall consist of the following items:

a) Contribution fees.

³⁸ Inserted pursuant to Article 19 of the Law No. 4646, dated 18 April 2001.

³⁹ Inserted pursuant to Article 10 of the Law No. 7451, dated 4 April 2023.

⁴⁰ Inserted pursuant to Article 19 of the Law No. 4646, dated 18 April 2001.

b)⁴¹ Fees to be charged for the licenses, certificates, approvals and visa procedures and annual license fees.

c) Publication revenues and other revenues.

d) Grants given by international institutions and organizations for use in the financing of studies and projects in relation to the development of the market, provided that their details are announced to the public.

The payers of the contribution fee are the license and certificate holder legal entities. The contribution fee shall be calculated by multiplying the net sales revenue amount specified in the income statements pertaining to the annual operating period issued by the payers in question by the contribution fee rate determined by the Board so as to not exceed 0,2% (two per thousand). The applicable contribution fee rate for each year shall be announced within December of the preceding year.

⁴² The payers of the annual license fee specified in paragraph (b) are the certificate and license holder legal entities. The annual license fee to be applied within the year shall be designated by the Board and announced in December of the preceding year. In case the contribution fee and annual license fees are not paid on time, such unpaid amounts shall be followed up and collected by the relevant tax offices upon the notification of the Authority in accordance with the provisions of the Law No. 6183 on the Procedure for the Collection of Public Receivables dated 21/7/1953.

C) Income of the Authority in relation to the petroleum market shall consist of the following items:

a) Contribution fees.

b) Fees to be charged for the licenses, approvals, permits and visa procedures.

c) Publication revenues and other revenues.

d) Grants given by international institutions and organizations for use in the financing of studies and projects in relation to the development of the market, provided that their details are announced to the public.

The payers of the contribution fee specified in paragraph (a) are the individuals and legal entities holding refinery, processing, distributorship, transmission, transportation, bunker fuel delivery, storage, dealership and mineral oil production licenses. Joint license holders shall be obliged to make contribution fee payments based on their total net sales. The contribution fees shall be determined by the Board so as not to exceed one thousandth of the net sales amount specified in the annual income statements issued by the license holders and USD two million. The applicable contribution fee rate for a year shall be announced within December of the preceding year.

If included in the net sales revenue, the sum of the customs taxes, duties and charges and Special Consumption Tax paid for petroleum during a year shall be deducted from the sum of net sales.

License holders who are obliged to make contribution fee payments must submit their balance sheets and income statements pertaining to the previous year to the Authority by the end of May of every year without waiting for any notice, and pay half of their contribution fee by the end of June, and the remaining half by the end of November.

Penal and administrative procedures shall be completed by the Authority for contribution fees that are not timely declared or declared incorrectly and judicial and

administrative procedures shall be initiated before the relevant bodies. The provisions of the Law no. 6183 on the Procedure for the Collection of Public Receivables on overdue financial liabilities and delay penalties shall be applicable and the collection of these amounts shall be made through the relevant tax offices.⁴³

D) ⁴⁴ Income of the Authority in relation to the LPG market shall consist of the following items:

- a) Contribution fees.
- b) Fees to be charged for the licenses, approvals, permits and visa procedures.
- c) Publication revenues and other revenues.

d) Grants given by international institutions and organizations for the financing of studies and projects in relation to the development of the market, provided that their details are announced to the public.

The payers of the contribution fee specified in paragraph (a) are the individuals and legal entities holding production, distribution, filling and autogas dealer licenses in accordance with the Liquefied Petroleum Gas (LPG) Market Law and the Law Amending the Electricity Market Law. License or joint license holders who operate by obtaining licenses in accordance with the Liquefied Petroleum Gas (LPG) Market Law and the Law Amending the Electricity Market Law shall be obliged to make contribution fee payments based on their net fuel and LPG sales. The contribution fees shall be determined by the Board so as not to exceed one thousandth of the net sales amount specified in the annual income statements issued by the license holders and USD two million. The applicable contribution fee rate for a year shall be announced within December of the preceding year.⁴⁵

If included in the net sales revenue, the sum of the customs taxes, duties and charges and Special Consumption Tax paid for LPG during a year shall be deducted from the sum of net sales.⁴⁶

License holders who are obliged to make contribution fee payments must submit their balance sheets and income statements pertaining to the previous year to the Authority by the end of May every year without waiting for any notification, and pay half of their contribution fee by the end of June, and the remaining half by the end of November.⁴⁷

Penal and administrative procedures shall be completed by the Authority for contribution fees that are not timely declared or declared incorrectly and judicial and administrative procedures shall be initiated before the relevant bodies. The provisions of the Law no. 6183 on the Procedure for the Collection of Public Receivables on overdue financial liabilities and delay penalties shall be applicable and their collection shall be made through the relevant tax offices.⁴⁸

In principle, the revenues of the Authority must meet its expenses. The income surplus of the Authority shall be transferred to the general budget until the end of March of the following year. The revenues of the Authority shall be kept in accounts opened in banks approved by the Board. The necessary financial resources shall be covered from the
